

# AM048040

## Specification

AM048040

Description	Lithium Polymer Rechargeable Battery
Typical Capacity	40Ah
Nominal Voltage	49.4Volts
Average Weight	≤21kg
Charge Mode	CC-CV (constant voltage with limited current)
Maximum charge voltage	54.6Volts
Suggestioned end discharge voltage	39.0Volts
Suggestioned charge current	≤15A
Continuous discharge current(max)	≤70A
Max.dicharge Peak current	200A
Operation temperature	-10°C ~60°C
Storage temperature	-20°C ~45°C
Overcharge Balancing Function	Yes
Warranty	2 years
Application	EVT Scooter(with Lithium Battery Kit)
